PROFESSIONAL SUMMARY

Detail-oriented Software Developer and Computer Science student with a 9.24 CGPA, strong foundations in Data Structures & Algorithms, and experience building desktop and web applications. Proficient in Java, C, JavaScript, and PostgreSQL, with a focus on writing clean, efficient, and scalable code.

SKILLS

- **Languages:** C, C ++,Java, Java Script
- **Technologies:** HTML, CSS, Node.js
- **Databases/Tools:** MySQL, Git, GitHub, Figma
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

Weather Intelligence Dashboard | [GitHub](#) Jun 2026 - Jul 2026

- Developed a responsive weather dashboard integrating live weather and air-quality APIs to display current conditions, hourly forecasts, and 7-day predictions across multiple locations.
- Implemented city search and geolocation-based weather detection with **10+ environmental metrics**, including temperature, humidity, wind speed, pressure, visibility, UV index, precipitation probability, and AQI.
- Built interactive temperature visualizations, Celsius/Fahrenheit conversion, sunrise/sunset tracking, and dynamic weather-based themes for clear, cloudy, rainy, snowy, and night-time conditions.
- **Tech Stack:** HTML, CSS, JavaScript, REST APIs, Chart.js, Geolocation API

Hand Gesture Based Smart Home Automation | [GitHub](#) Mar 2026 - May 2026

- Developed a contactless smart home automation system using Python, OpenCV and Media Pipe for real-time hand gesture recognition and appliance control.
- Mapped thumb-index finger distance to PWM control for dynamic 12V DC fan speed regulation through an L298N motor driver.
- Implemented finger-count-based multi-LED control along with DHT11 temperature and LDR-based environmental automation.
- Integrated dual Arduino Uno controllers, ultrasonic proximity sensing and 16x2 LCD monitoring for real-time system feedback.
- **Tech Stack:** Python, C++, OpenCV, Media Pipe, Arduino Uno, DHT11, LDR, Ultrasonic Sensor, L298N

Personal Portfolio | [GitHub](#) Aug 2026 - Present

- Developed a responsive personal portfolio website showcasing projects, skills, education, certifications, and achievements.
- Integrated an AI-powered assistant and interactive UI elements to enhance user experience.
- Deployed the website using Vercel with a custom backend for AI functionality.
- **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, Gemini API, Vercel.

CERTIFICATES

- Introduction to Web Development with ChatGPT | [Simplilearn](#) Aug 2026
- Cyber Security CDP | [WNS Cares Foundation](#) Jul 2026
- Introduction to Generative AI | [Simplilearn](#) Aug 2026
- Learning Full Stack React | [Infosys Springboard](#) Mar 2026

ACHIEVEMENTS

- Solved more than **50+** programming problems on online coding platforms during regular practice and learning.
- Completed certificates in Web Development, Generative AI, Full Stack React and Cyber Security.
- Completed Community Development Project by organizing and conducting learning activities for 30+ children.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.47 Aug 2025 – Present
- **St. Joseph's Convent School** Kotdwar, Uttarakhand
Higher Secondary Education; Percentage: 89.25% Apr 2024 - Mar 2025
- **St. Joseph's Convent School** Kotdwar, Uttarakhand
Secondary Education; Percentage: 93.2% Apr 2022 - Mar 2023
